

# A Short Photo Tour of Indian Queens Nursery at Indian Queens School

*"Behold the day. It's yours to make"*

We have made this slide show to give you and your child a picture what Nursery looks like.

Some of the areas may look a little different in September when we are able to return to 'normal'.

Our outside area taken from the main entrance gate. You can just see our giant sand pit on the left.

This lovely area is our giant sand pit. It has a big pirate ship in the middle that we go on adventures in.

This is our outside story  
telling area.  
We also use this  
space to put on  
shows for each other.

We have a water wall that is great for pouring and tipping water down

This is our garden  
kitchen.  
We make lots of  
garden pies here

This is our allotment.  
We grow lots of vegetables  
and flowers here.  
The 2 trees you can see are  
apple trees.  
We use the apples to make  
apple crumble in our kitchen.

This is the main entrance of Nursery.

This is our cloakroom area. You will have your own coat peg. We also have a special shelf to store all your wellies.

The following pictures will give you and your child an idea of what the inside of Nursery looks like.

The Reading and  
Carpet Area.  
This is where we  
share stories and  
have our learning  
time.

This is our kitchen.  
We make snack here  
and cook  
yummy treats like  
apple crumble and  
pitta pizzas

# Our Classroom.

Our role play area.

The construction Area

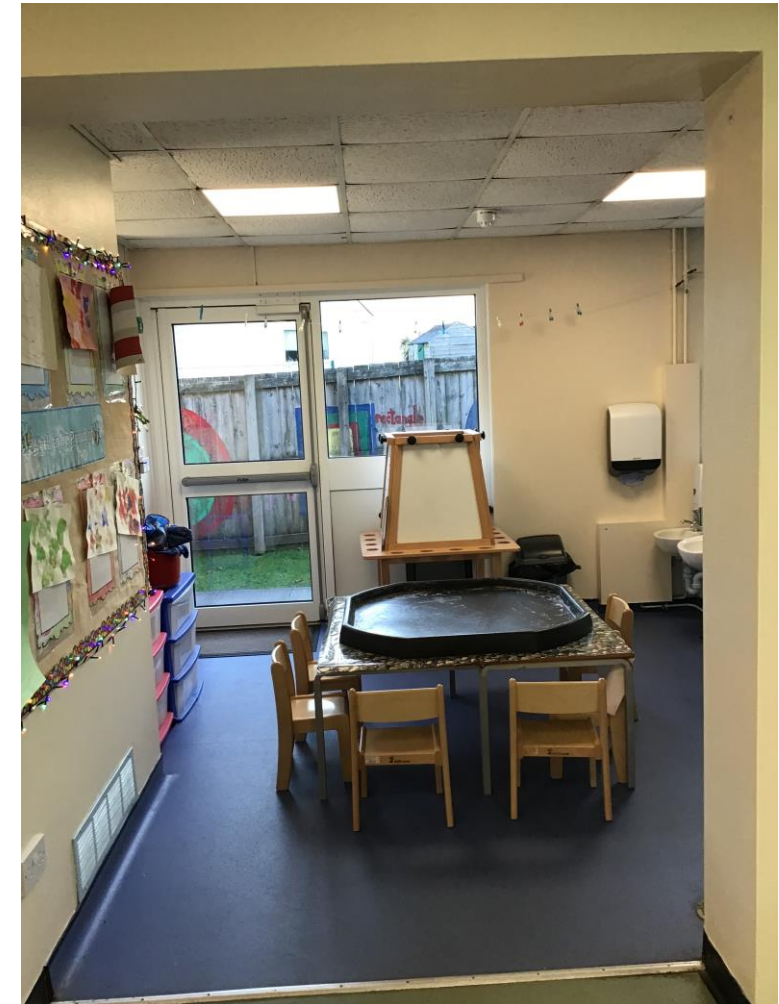

The classroom from the construction area

The creative area.  
This is where you can  
paint, use  
playdough,  
and practise cutting  
skills.

This is our kitchen.  
We make snack here  
and cook  
yummy treats like  
apple crumble and  
pitta pizzas

These are  
our toilets  
and  
changing  
area.

We are looking forward  
to seeing you in September
