Athletics

Religious Education

How and why do people in Cornwall mark significant events?

Computing:

Coding: creating loops and debugging programs

Topic/Geography/Science

Find your flippers and your snorkel. Grab your wetsuit. We are going deep into an underwater world of plants and mysterious sea creatures, learning about life in the ocean. What lives beneath the waves? What is the deepest place on earth like and does anything live there? How are ocean habitats changing for the plants and animals that live there? Create an underwater world made almost entirely from biscuits! Make a craft to help you escape from a desert island...

PSHE: Growing and Changing

Oceans of the World

Art/DT

Food technology - cooking

Painting of under the sea scenes

Observational drawings
